

thermOweld® Accessories Packing Material

thermOweld's packing material is used to prevent the molten weld metal from leaking out of the mold. When the cable opening becomes worn from heavy use, the packing material may be used to prolong mold use. It is also used around 7 strand cable to prevent leaking. Packing material comes in a 1 lb. or a 5 lb. package. The 1 lb. packaging is now available in a re-sealable plastic container.

One Pound Packaging

| Catalog Number | Packaging |
|----------------|-----------|
| 38-4129-00 | 1 lb |
| 38-4129-05 | 5 lb |

Note: This packing material to be used on outside of mold only. If packing gets into weld cavity, gassy welds will result.
